

NEWS!

# CONEXIO SBT Resolver™ product line is now distributed by Olerup, ensuring a high level of service and flexibility towards the HLA community.

**From May 1, 2011**, Olerup has the distribution and marketing rights for the CONEXIO SBT product line. Thereby Olerup will be able to further increase focus and service towards the HLA community. In addition Olerup also distributes Olerup SSP® HLA typing products within this segment.

## Products

Conexio's SBT Resolver™ products are single tube Locus specific PCR based HLA sequencing based typing products:

SBT Resolver™ A – PCR amplification from the 5UTR to intron 4 of HLA-A and enables sequencing of exons 1 to 4 (product number XH-PD1.1)

SBT Resolver™ B – PCR amplification from the 5UTR to exon 5 of HLA-B and enables sequencing of exons 1 to 4 (product number BS-PD2.1)

SBT Resolver™ C – PCR amplification from the 5UTR to 3UTR of HLA-C in two amplicons and enables sequencing of exons 1 to 7 (product number HH-PD3.2)

SBT Resolver™ DRB1 – PCR amplification and sequencing of exons 2 and 3 of HLA-DRB1 in 2 amplicons (product number HH-PD5.2), includes the first variable region in exon 2.

SBT Resolver™ DQB1 – PCR amplification and sequencing of exons 2 and 3 of HLA-DQB1 (product number PQ-PD6.2)

SBT Resolver™ DPB1 – PCR amplification and sequencing of exon 2 of HLA-DPB1 (product number LB-PD10.1)

Coming soon: DRB1 GSA's and DRB3, DRB4 and DRB5

A comprehensive set of HARPS for all loci

## Software:

Assign-SBT v3.6+

Tailored for Conexio's SBT Resolver™ assays for high resolution sequencing based typing. Reports G groups, P groups and has CWD indicators. Contains advanced HARPS reporting.
